## A GREAT OUTDOOR **GATHERING TODAY**

Chief Event of Y.P.S.C.E Convention.

CONSECRATIONS FOR SUNDAY AND FAREWELL MONDAY.

Weather at Detroit Still Very Bad. "Quiet Hour" in Tent Endeavor This Morning More Largely At. tended Than Ever-Rev. Dr. Barrows of Oberlin College, Makes a Plea for Christian Training-Im-Business Meeting.

Detroit, July 8—[Special]—A great outdoor gathering is the chief event of the Christian Endeavor convention to be held this afternoon and consecrations ant of the entomological division of the are scheduled for Sunday and farewells for Monday.

The weather is still very bad. The "quiet hour" in Tent Endeavor

this morning was more largely attended Detroit, Mich., July 8.-Rain de-

seended in torrents at times Friday, and twice interrupted important sessions in Tent Endeavor, but failed to dampen the ardor of the delegates. The address of President John Henry Barrows of Oberlin college was interrupted, the rain descending upon the tent roof, creating so much noise that it drowned the sound of Dr. Barrows' voice, and he was compelled to desist. Finally the rain ceased and Dr. Barrows continued. His address was a plea for "Christian training" in the colleges of the country.

Bishop B. W. Arnett (colored) presided over the evening meeting. The devotional exercises were led by R. R. Patterson of San Francisco and the moments of meditation and prayer by the Rev. George E. Soper of St. Paul.

Largely attended evangelistic services were held during the noon hour at factories, public squares and wharves throughout the city. The afternoon was given up to conferences in the larger churches.

The afternoon feature of interest for Endeavorers was a conference of district and city union officers, conducted by General Secretary Baer. Many suggestions for strengthening the unions and furthering the cause through such fraternity were brought out by the discussions. Other features were conferences of junior society workers, of the "Floating society" and of the "Travelers' union.'

In the afternoon the trustees gathsered in the Hotel Cadillac to discuss several matters left undetermined at leading. Wednesday's meeting. The most important of these was consideration of a profest from the Ministerial alliance of Toledo against the opening of the gates of the Ohio centennial on Sun-

After some discussion and contrary to the expressed wishes of the Toledo representatives who were present, a general resolution was authorized protesting in the name of the Christian Endeavor society against opening the gates of any national exposition or fair ⊸on the Sabbath.

Another resolution was announced protesting against the seating of Congressman-Elect Brigham H. Roberts of Utah. Both resolutions were roughly drawn; when completed the text will be submitted to the general convention for adoption.

The trustees consumed some time in the discussion of matters concerning the 1900 convention at London and the methods and rates of ocean transportation, but adjourned without definite

There is understood to be a plan under consideration for the chartering of several large ocean steamships to carry the American Endeavors to England.

Secretary Baer says the idea is to make a straight fare for all parts of the ships and have the second cabins and steerage fitted up as nearly as possible on an equality with the firstcabin staterooms, and also to allow the passengers full privileges of the upper decks and provide them with all possible conveniences.

The rain practically ceased soon after 10 o'clock, and the program proceeded with both the great main tents comfortably filled. Tent Endeavor was the scene of a "practical school of methods," addresses afternating with open parliaments in bringing out conesensus of opinions and past and prospective achievements.

The Christian Endeavorers were asked Friday by the Rev. Charles M. Sheldon of Topeka, Kas., to raise \$1,000,000 with which to found a Curistian daily newspaper in Chicago. The author of "In His Steps," while addressing two great meetings in the afternoon and evening, asked for the establishment of a newspaper to carry out the principles outlined in his popular book. The subject will be considered further.

LOOK OUT FOR "KISSING BUG"

Bower City People Are Warned to Beware of the Insect.

Bower City people are warned to look out for the "kissing bug" with a penchant for embracing the lips of slumbering persons. It has made its appearance in Chicago and last night one woman and two young men felt its deadly sting upon their lips. This mysterious melanolestes picipes or "kissing bug" is about one half inch long and belongs to a group of insects that feed on other bugs in preference to plants.

Its liking for human blood is a habit portant Matters Acted Upon at the of recent acquisition. In 6the western country it is often found in poultry houses and when in large numbers fre quently attacks horses and other ani. mals. The identity of the "kissing bug" was first discovered by an assistagricultural department at Washington. He had been severely bitten by a picipes, and finding one upon the bed, took it up and after a carful analysis made the discovery of its relationship to the common house bug. The entomologist who discovered the "kissing bug" says its favorite food is a house insect. The picipes when full grown has a proboscis which pierces its victim's skin without any perceptible sensation, but the swelling sets in almost immediately with an intense burning pain and lasts often from one to two days.

The part punctured by the proboscis of this poisonous bug usually swells to twice its normal size within an hour

Those Who Served with Credit During the Spanish War Will Again Be Placed in Authority--A Dispatch from Cavite Reports All Quiet-General Otis Ascertains the Desires of Soldiers in Philippines\_Two Skeleton Regiments Are Now As-

Washington, July 8-[Special]-The following was received from Gen. Otis this morning: "The desires of all the volunteers in the Philippines have been ascertained, and two skeleton regiments are now fairly well assured."

Washington, July 8.-The president Friday brought before the cabinet the plan for officering the provisional army. The decision to appoint the colonels and lieutenant-colonels of the volunteer regiments from among the regular army officers who served during the Spanish war and the volunteer officers from among those who served in the volunteer army with credit and distinction was heartily approved by the members of the cabinet. The records of the volunteer officers are to be carefully looked to in the selection of officers below the rank of lieutenantcolonel.

It was stated at the war departmen. that almost every officer who served in the volunteer army during the war with Spain and who had been honorably mustered out, has again offered his services to meet the needs of the Philippine campaign.

Altogether no less than 10,000 applications for commissions in the new volunteer army now forming have been received at the war department and have been placed on the files. On Friday alone the applications numbered

How to Reach Two Famous Resorts

T. O. Brown, H. L. Smiley,

An Outing Hint From "Outing," Fast, safe, superbly equipped and most carefully governed, one need not wonder at the great popularity of the New York Central. No other line affords such facilities for through travel between the East and the West as this wonderful four track system, In the possession of Grand Central Station, located in the heart of New York City, and within trifling distances of all firstclass hotels, this railway offers greater advantages than competing lines. Spring, summer, autumn and winter, it has attractions irresistible. The great Northern Wilderness, the playground of the state, now beckons its thousands. As autumn falls, America's scenic masterpiece, far-famed Niagara, will claim its annual host of pilgrims with its majestic power, the fierce turmoil of the Whirlpool and all the picturesque surroundings, the awesome Cave of the Winds and the several other minor attractions of the vicinity. And when winter comes then the entire scene transformed to what seems a fairyland of marvelous frost dressings, of icy forts and snowy pa aces; of gleaming, crystal prison barriers vainly striving to bind the roaring, foaming plunge of water-will pre sent a spectacle of weird, mysterious

beauty which is not duplicated in the

### build the house around the bath room.

Some PEOPLE say. The modern idea in building is to have the bath room and plumb-ing convenient and nice, it you are obliged to cut off on something else.

That Double System of Plumbing..... we are putting in many

houses, is a convenience well worth looking into. It can be placed in any house. With it you have soft wa ter for the bath and lava tory purposes and with the

turning of a valve you can run city water through the pipes. A motor elevates the soft water automatically. We would be pleased to explain it more fully to you.

We figure on work of all kinds cheerfully.

Fire Into Wisconsin Train.

Chippewa Falls, Wis., July 8.-An attempt was made last night to hold up the limited passenger train on the Chicago, St. Paul, Minneapolis & Omaha railway running between Duluth and Chicago, near Chetek in Barron county, thirty miles north of this city. The train was fired into three times. Two bullets went through the windows of -one of the coaches and lodged in the roof of the car. The engineer opened the throttle, and, although several amore shots were fired at the train, mone took effect. The sheriff of Barwon county was notified by wire from here, and with a posse of men has gone to the scene of the attempted hold-up.

Been Formulated.

Narragansett Pier, July 8.—The members of the stibeommittee of the United States senate finânce committee, who have come here to discuss the question of currency reform, have settled down to two sessions, aggregating six hours daily. The deliberations of the committee are private and Senator Aldrich of Rhode Island, chairman of the subcommittee, stated decidedly that every statement which had been printed purporting to come from the committee had been purely guesswork. He said: "We may reach stages in progress when the publication of news concerning the progress of our work can do no harm, but at present no bill or section of a bill has been drafted." Senator Platt (Conn.) has been called home by illness in his family. It is thought the committee will finish in two or three weeks.

TO CLEAN MATTING.

To make soiled matting look fresh and bright prepare a pailful of warm water with a handful of salt and four tablespoonfuls of Ivory Soap shavings dissolved in it. With a clean cloth squeezed out of the mixture, wipe every breadth of the matting, rubbing soiled spots until they disappear.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfelts, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Other People.

Our readers must have noticed in the past two years how "cures have multiplied in the newspapers like mushrooms in a meadow, and following the pletbora of "cures" the general public have turned remarkably skeptical. Fracts are demanuded, but it has also become essential to know who supplies them, where are they from, in fine, whom have you cured. Doubting Thomas would not accept a par incredible cures on the other side of the continent. He wants "it at home. "Cive us some neighbor, then I will believe," is what he asks for. truth of it without leaving Janesville.

Here is a case;
Mr. John Stetson, of Hotel Myers, day clerk, says: "I was thoroughly examined by a physician some time ago who pronounced my trouble kidney complaint. If the severe pain across the small of the back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks which when not virulent there existed a dull, grinding ache, which robbed me of considerable energy, I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People'so Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date, and it is some months since, I have not noticed

any recurrence of my old trouble."

PRAISES THE CELEBRATION. Under the heading "Janesville Does Herself Proud" The Beloit Free Press

"It is generally agreed by the many who took in the celebration at Janes. themselves proud with their efforts to entertain this year. It is easy to scold and find fault with a celebration, but proper of the Pulling was the respect. The umpiring was the worst feature of all, and why the Y. M. C. A. in the face of public derision has persisted in naming Baldwin for that none of the Beloit folks who were at the county seat last Tuesday find any fault with the "doings." All say Janesville did well. Even the wet weather did not Masters out was the straw that broke prevent a good entertainment, and when the camel's back, and Nash of Wheaton Janesville bids once more for a crowd on was called in giving excellent satisfac the Fourth of July she will get it. It pays to do such things well, it is bad public policy not to do so, and the praise bestowed on our sister city will show them that people appreciate such efforts as theirs on the Fourth. A great feature of the day was a mock circus parade. \* \* The whole thing was in the procession, including the granger with his balky horse. There was an array of charioteers with fair girl drivers riding in road scrapers, and Indian and cowboy brigade, bands mangling tunes and a steam calliope."

## FOR Y. M. C. A. NINE

NEARLY SHUT OUT VISITORS IN YESTERDAY'S GAME.

Sharon, with Her League Players, Defeated by a Score of 5 to r-A Pleasant Surprise for Local Enthusiasts-Both Clubs Played Good Ball....Adkins Retired Fourteen.

If Sharon had sent the advertised nine to compete with the Y. M. C. A. club there would have been a very warm session at the ball park yesterday after-

Instead of "Five Western League players," there were three formerly of the Western Association, and the balance from Sharon and vicinity, several of whom couldn't hit a pipe, and the colored short stop handled the ball as if it had been dipped in grease. The Y. M. C. A. presented the strongest nine of the season, and showed much improvement in their batting, Blakely in particular, exhibiting some of his old time form, and giving a fair sample of what he can do when he gets into the game. It is to be regretted that Benny Carle does not have more opportunity for practice, especially in batting. Disch, the new short stop, gave indications of being a good all around man. In fact they all did well and McMasters and Adkins are a battery fast enough for almost any company. The crowds at the games are increasing in numbers, but have not yet attained the size such playing deserves. Of the visitors Blanford and Bubser were a good battery, and the former is a great thrower to The rest of the nine with the exception of short stop played a fair fielding game, Bobby Warner excelling position is a mystery. He is impartial, but his judgment on balls and strikes is execrable and puts the batters all at sea The decision on second declaring Mc

Score by innings:

In the first inning of the Sharons, with two men out, Olsen muffled a difficult foul fly, and they then proceeded to make three hits, resulting in one run and a fusillade of remarks from the Sharon contingent on the seats, aimed, principally, at Adkins. "Knock him out of the box;" "break his heart"; "Do you remember that game at Elkhorn, 13 to 0?), were a few of the expressions, but Adkins handed them the cocaine bottle shortly afterwards, and silence reigned

supreme in the camp.
In the seventh inning three of the Sharons struck out in succession—they never touched the ball.

The Y. M. C. A's had a gift of one run on a lost ball in left field, and lost several by careless base running.

A collision between the center and right fielders of the Sharon nine was narrowly (?) averted by neither of them

The Sharon short stop played as well during the game as in the preliminary practice—he was a painful aggravation to Bubser.

The two colored Sharon players do not belong to the Chicago Unions.

But for the unfortunate error of Olson

Sharen would have been shut out, but he played a brilliant game afterwards, making an elegant pickup.

In view of the fact of some one run-ning for E. Brown during the entire game, Adkins looked very small when he objected to the substitution of Warner for one of the Sharon players at al most the finish. He must have caught his reflection somewhere, as he immediately relented and resumed his normal

Fourteen strike outs, no bases on balls, no wild pitches, and no passed balls is quite a record for McMasters and Adkins.

McMasters should have thrown that stead of an error-calling it a strike instead of a foul gave him all the best

# She Was Pale 3 Death

Miss Cordelia Moore, of Malone, N. Y., until recently, has been a life-long invalid from palpitation of the heart and weakness of the Physicians were puzzled over her case, their most skillful efforts were baffled. Various remedies

were tried without avail. The proverbial "change of climate" was advised, but the constant change wore upon her until, to quote her mother's words, "she became a living ghost." Miss Moore said: "Upon advice of a friend I began taking Dr. Williams' Pink Pills for Pale People and before the first box was used I noticed a great change. I began to regain my appetite and felt better generally. After finishing the first box I took six more. The effect was wonderful. I grew strong and gained in flesh. I never felt better in my life than I do now. I weigh more than ever before and I consider myself cured.''

Isadore Cohen, who it is alleged attempted to defraud the fire insurance companies by over insuring his stock of goods and then setting fire to the Tallman block on West Milwaukee street, is no longer a prisoner in the Rock county jail.

Friends in Milwaukee have come to Cohen's rescue and have gone good his \$800 bail. They have done better for they have advanced the defendant money in order that he may be able to fight the case to the bitter end.

Cohen has engaged the services of the local law firm of Sutherland & Nolan. During the past few days friends and attorneys have been in Chicago working hard in the interest of Coben and it is said that when the case is called to trial they will have many witnesses to testify in his behalf.

LOCAL RESIDENT HAS VALU-ABLE MONEY.

W. H. Lathers, Who Resides in the Spring Brook Addition, Has One of the Most Valuable of Old Paper Issue-Has Been Handed Down by the Lathers Family

W. H. Lathers, who makes his home n this city on the former Burr Robbins for a month's stay at Fulton. place in the Spring Brook addition, has just made the discovery that he is in possession of a \$3 bill that is worth a small fortune. Mr. Lathers places it value at \$2,000.

The bill is one that coin collectors in all parts of the world have eagerly been searching for for several years past, and at different times have offered large sums of money for its purchase, but never being able to locate it:

Several years ago this bill came into possession of the Lathers family and from family to family it was handed down as a family relic, no one ever dreaming that it was worth so much.

The bill bears the date of 1776 and is still in good condition, the printing be-

ing plainly visible.

The paper is three by four inches with the words "Three Dollars" printed on one side. Below this is printed: "This bill entitles the bearer to receive three Spanish dollars, as the value thereof in gold or silver according to a resolution of Congress passed at Philadel phia July 22, 1776. The signatures of N. Gammon and F. Howard are annexed and are still readable.

The words The United Colonies and Continental Currency are also on the same side of the bill. On the opposite side is printed: "Philadelphia. Printed by Hall and Sellers, 1776."

In speaking of his valuable bill Mr. Lathers says that just as soon, as be realized that he had a valuable piece of old money in his possession, he commenced to inquire as to its real value to money collectors. A New York firm have come to the front and has made an offer of \$700 for the bill, having found that it is genuine.

Mr. Lathersenys that the bill is worth \$2,000 and that the day is not far distant when he will be able to secure that Morld," which will for the first time be

Owners Now Consider Janesville One of Their Best Cities-Will Undoubtedly Do Tremendous Business
Here—Carry the Best Show on the Road Today.

Janesville is to have a first class circus this summer. Ringling Brothers' shows will pitch their tents here on the fair grounds on Thursday, August 17.

A message received by local officials of the Chicago & Northwestern railroad this morning brought the news of the visit of Ringling Brothers to the Bower City. Their show will be heartly welcomed by the citizens of Rock county.

Since starting from Chicago this spring the show has worked west a greater portion of the time and has enjoyed a tremendous business.

At many points they have met with bad luck in the way of having their tents damaged by severe wind and rain storms.

A few years ago Ringling Bros. considered Janesville a poor show town but they changed their mind on showing here two years ago when they were greeted by immense crowds at both afternoon and evening performances. No better show travels today than Ringling Bros. and present indications are that the seating capacity of their mammoth tent will be taxed to its

## THE BOERS AND THE

of Affairs In the Transvanl.

BY CAPTAIN T. B. FRANCIS.

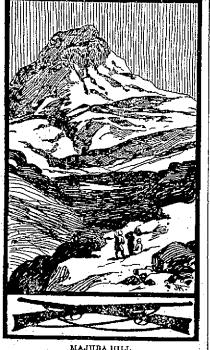

Like a stone in the bottom of a well lies the memory of Majuba Hill in the heart of John Bull. It was there that General Joubert, leading a mob of Boer farmers, broke a famous "British square" and wrung from England a recognition of the independence of the Transvaal republic.

Ever since the Dutch and the English have rubbed elbows in South Africa, and that has been for more than a century, the Boers have from time to time been called upon to "trek" or fight. Sometimes they have "trekked," sometimes they have fought and sometimes they have done both. Each time they have fought the British lion has lashed his tall in vain rage.

Once more it seems as if the Boers would either have to "trek" or fight. The situation today is practically the same as in years past. Having driven out or subdued the fierce tribes that once dwelt beyond the Vaal, the Boers have settled down on the land thus sepured, content to practice their homely virtues and raise great herds of stock. But the English have come in to develop the treasures of the Rand, which the Boers disdain. To these gold digging uitlanders the Boers have denied the rights of full citizenship and have made them pay well for the privilege of mining within the borders of the republic.

Great Britain, who follows with a helping hand her colonists, even to the ends of the earth, asks the Boers to grant the uitlanders more privileges. The Boers refuse, and now General Joubert, confident in the strength of the little republic, is talking of capturing the De Beers diamond mines and raiding Cape Colony clear to the Cape

On the hill above Johannesburg rises a fort which fairly bristles with rapid fire guns. This is one of the ways the

MAJUBA HILL.

Boers take to discourage a revolt of the uitlanders. Those guns were paid for by taxing English mining enterprises, and they were made in America.

For the past three years the Boers have been silently preparing for the exthey depended on their long rifles, but if England sends another force to coerce the Transvaal her troops will be met by a well equipped army of the bravest fighting men known to modern times.

At Majuba hill the Boer forces consisted of unorganized farmers. But each farmer was a dead shot. The Boers of today are just as good shots as they were a half century ago, but in the meantime they have acquired a military education. They may not be able to dress and mark time with the machinelike precision of some of the British regular regiments, but they understand the tactics of fighting, especially as applied to the country in their immediate vicinity. Captain William H. Hudson of Chi-

cago, who for years served in the British forces, said recently: "The Boer is fanatically brave, but has the coolness which most fanatics lack. He knows every inch of his country, and he is without a peer in the world as a rifle shot. I never served in South Africa, but I have many friends who went through the campaigns of 1880 and 1881 against the Transvaal Dutch. In one engagement, short, but disastrous, out of a total English force of between 690 and 700 the loss in a few hours was 283 killed and wounded-nearly half the force. It is a literal fact that the great majority of the dead soldiers were found to have been shot through the head, a hole in the helmet of each of the fallen showing the mark at which the farmer rifleman had aimed."

English writers on the subject of the Boer's shooting abilities have said that there was something absolutely terrifying in the knowledge of the fact that, hidden somewhere out in the brush or behind the hillside embankment, lay an enemy who "rang the bell of his target" much oftener than he missed clean.

A returned traveler from the Transvaal, an Englishman, was talking about the marksmanship of the Transvani farmer. The visitor said that he had been entertained at a peasant farmhouse while on a hunting trip and

that, to his other astonishment, a boy 9 years of age, the son of the peasant proprietor, was turned over to him as a guide and hunting companion. The boy further astonished the Englishman when they had reached a wide plain stretching out from the edge of a wood by dropping to one knee and killing at a distance of 900 yards a grazing springbok, the smallest known species of African antelope.

"I would not have attempted the shot," said the Englishman. "The boy fired and took the killing as a matter of course. They all know how to shoot from the time they are able to hold a weapon, and I don't envy the six footer whose uniform makes him a shining mark for one of these long distance riflemen."

When a Boer farmer was asked how it happened that his compatriots were such excellent marksmen, he said that it was due to the British policy.

When 14 years of age, he left this country and went to Holland. His taste for war was always keen, and when the rebellion broke out he came to this country and served in the navy under Admiral Dupont. Later he was captain of a colored company under General Weitzel. After the war he returned to Holland and later went to South Africa. When the rule of the English became intolerant to the Dutch at Cape Colony and Cape of Good Hope and many of them went north to the Transvanl, General Joubert went with them. After he had assisted materially in driving out the wild beasts, conquering the savages, settling the country, discovering and developing the diamond fields, the English suddenly discovered that they had a claim to this faraway country.

He was only a plain Boer, or farmer, when his fellow subjects determined to resist the British. In 1881, at the bead of a handful of Dutch farmers, he met the British army at Majuba hill and put it to flight after great slaugh-This secured liberty for the Boers, and they accordingly look upon General Jouhert, now vice president of the South African Republic, as the Washington of their country.

Business Reverses in the Second Quarter of the Year the Smallest Recorded for a Long Period-Bradstreet's Shows Favorable Conditions of Business.

New York, July 8.-R. G. Dun & Co.'s weekly review of trade says:

"Failures of the first half of 1899 with banking and financial included as in all other accounts published were 4,884, with liabilities \$49,664,661. Commercial failures were 4,853, with liabilities of \$42,062,933, of which \$16. 723,353 were manufacturing and \$23. 011,364 were trading. In the second quarter failures were the smallest ever reported in that quarter of twenty-five years for which quarterly reports have been made by this agency. The average per failure-\$7,165-is the smallest ever known in any quarter; the average per firm in business-\$12.20-and the ratio of defaulted liabilities to solvent exchanges-62 cents per \$1,000 --are both the smallest ever known in any quarter."

Bradstreet's says:

"Holiday observances and semi-annual stock takings have worked toward quiet in general trade and industry, but it is significant of the favorable conditions ruling in this, as compared with previous years, that trade advices point to rather more than the average business being done, notwithstanding the checks to demand and shipment above mentioned. Additional results of the season's work brought to light are fully as favorable as those indicated in Bradstreet's report last week, and furnish an adequate basis for the general air of confidence with which the business world faces the last half of the year.

"Business failures for the week number 136, as against 158 last week, 241 in this week a year ago, 213 in 1897 219 in 1896 and 266 in 1895. Business failures in Canada for the week number 25, as compared with 23 last week, 16 in this week a year ago, 34 in 1897, 32 in 1896, and 30 in 1895."

# TO BE CURED.

S. S. Is a Great Blessing to Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among older people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping their blood pure they can fortify themselves from which they suffer so generally. S. S. S. is the remedy which will keep their systems, young, by purifying the blood, thoroughly removing all waste accumulations, and imparting new strength and life to the whole body. It increases the appetite, builds up the energies, and sends new lifegiving blood throughout the entire system.

Mrs. Sarah Pike, 477 Broadway, South Boston, writes: "I am seventy years old, and had not enjoyed good health for twenty years old, and had not enjoyed good health for twenty years. I was sick in different ways, and in addition, had Eczema terribly on one of my legs. The doctor said that on account of my age, I would never be well again. I took a dozen bottles of S. S. S. and it cured ms completely and I am happy to say that

I feel as well as I ever did in my life."

Mr. J. W. Loving, of Colquitt, Ga., says: "For eighteen years I suffered tortures from a fiery cruption on my skin. I tried almost every known remedy, but they failed one by one, and I was told that my age, which is sixty-six, was against me, and that I could never hope to be well again. I finally took S. S. Alger Enters a Denial.

New York, July 8.-Before his departure from the city Friday Secretary of War Alger had a word to say about the contest for the Michigan United States senatorship. He denied in the most positive manner the existence of any political combination between Gov. Pingree and himself. "There can be," he said, "no political combination between Gov. Pingree and myself, because it would be impossible for me while a member of the cabinet to form one with anybody who is not in perfect accord with the president's policy, and Gov. Pingree is known not to be. I heartily favor the president's policy, and have no intention of resigning from the cabinet."

New Wage Scale on Wabash.

Toledo, Ohio, July 8.—An advance of 10 per cent in the wages of the Wabash trainmen and engine men has been announced. During the panic of 1893 the wages of these employes were reduced from 15 to 20 per cent. No promise was given then that they would be restored, but the apparent policy of the management is to place the wages of its employes back to the old standard as soon as the finances of the company will justify it. The action of the company is entirely voluntary.

Plan Peace in All Lands. The Hague, July 8.-The plan for

arbitration was submitted to the committee at The Hague Friday and apparently was well reteived. No definite action was taken, the delegates desiring first to receive instructions from their respective governments. The scheme provides for mediation, and then for a permanent court of arbitration, with an international bureau at The Hague. The powers who accept arbitration are to sign a special act, clearly defining the object of the dispute as well as the scope of the arbitrators. The powers' act confirms the undertaking of the parties to submit in good faith to the decree of the arbitrators. The committee decided not to reassemble until the 17th inst.

Ohlo Democrats Organize.

Columbus, Ohio, July 8 .- A state organization to be known as the Obio Association of Democratic Clubs was formed here Friday for the purpose of disseminating democratic principles as enunciated in the last democratic platform and for the more complete organization of the democratic party in Ohio. The resolutions adopted reaffirm allegiance to the Chicago platform and "demand the renomination of that fearless champion of the democracy and the people's rights, William Jennings Bryan." Strong "antiexpansion" resolutions were adopted.

United States Hold to Their Contontion

In the Alaskan Dispute. Washington, July 8 .- Following the rule governing diplomatic exchange, the state department absolutely refuses to make public the latest instructions sent to Mr. Choate respecting the modus vivendi. However, it can be stated that they do not contemplate any abatement in the claims of the United States as to the territory to be included in the provisional boundary line, and, generally, they look to a persistence in the original position on the part of America.

It is the belief now that the two governments have come to a point where it must be admitted that their respective representatives must abandon their efforts to agree upon a boundary line, even though the latter be but temporary and subject to correction by subsequent negotiation. Whether or not arbitration will be the final resort cannot be foretold. At present that means has not been offered in such shape as to be acceptafeared that the effort to arrange the limitations of an arbitration would be beset with as grave difficulties as those in the way of direct negotiation.

CLAIM NOMINATION OF BRYAN.

Certain of 626 Votes.

New York, July 8.-Col. Bryan's friends say he is certain already of 626 votes in the coming national democratic convention-nineteen more than enough to nominate. They believe the colonel's strength will probably be increased by the addition of the state of Illinois, Massachusetts and Michigan, that are now classed as doubtful. The vice presidency on the Free Soil ticket states set down as sure to east their votes for him are: Alabama, Arkansas, California, Colorado, Florida, Georgia, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Wash-ington, Wisconsin, West Virginia and Wyoming.

> The anti-Bryan states are said to be: Delaware, New Jersey, New Hampshire, Vermont, Malne, Connecticut, Rhode Island and Maryland.

> The following are classed as doubtful states: Illinois, New York, Massachusetts and Michigan.

Bank Failure at St. Paul. St. Paul, Minn., July S .- Edward M. Pope, bank examiner of Minnesota, has taken charge of the Savings bank of St. Paul, the oldest savings institution in Minnesota, whose president is Thomas A. Prendergast. The bank has deposits of slightly less than \$1,000,000, and the number of depositors is nearly 5,000. The institution has been a heavy lender on real estate, especially during the boom times from 1882 to 1889. Many of its mortgages were taken on the high valuation of those days, and the great depreciation in values really swamped the bank in much the same way that the Bank of Minnesota went down in 1896.

GAY FUNERALS IN BRAZIL. Death Is Not a Solemn Affair with Ric Janeirings.

One of the first things that strike the eye of the stranger in Rio de Janetro are some odd-locking carriages. You think there must be a circus in town but on inquiry are told "those are Owing to the climate a corpse cannot be kept over twenty-four hours, nor will the law allow it, and so many have their clothes made and funeral invitations printed before they are ready to die. They do not regard death as seriously in Rio as we do in North America, but lay great stress on the outward show. Even infants are put into mourning for their forty-second cousin, poor and rich alike. I received an invitation to the funeral of a child of a friend. It was printed on white paper having a scarlet border. Scarlet is the color used by the Brazilians for the funeral decorations of the young, while violet is for adults. The invitation has not only the names of the parents of the child, but the grandparents, uncles, aunts and cousins. I was supposed to bring a wreath or other emblem of artificial flowers (real ones are seldom used), and drive to the mourners' house. There I was met by an usher, who took the wreath and led me into the "chamber of death," where the mourners and priests were praying for the departed soul. Every article of furniture, pictures, knicknacks, etc., had been removed from the room, and the coffin was placed in the center, upon a bier draped with scarlet cloth, around which the wreaths, etc., were put. When the prayers had been said the father and brother carried the coffin to the hearse. The hearse was also scarlet and gold, but oh! so shabby, and so were the two men on the seat, who were dressed from head to foot in the same bright colors, and looked more like organ monkeys than men. A closed cab led the procession, in which sat the priest in all his bright robes; then followed the learse, after which, in open carriages, the male relatives and friends (no women attend any funerals) .-Philadelphia Inquirer.

Y. M. C. A.'S IN CHINA. Lots of Serious Celestials Join in the Work.

Amid the discouragements which the recent revolution in Peking has occasioned to those concerned in China's welfare-for the movement in question is manifestly anti-reform, anti-foreign, and consequently anti-Christianthere are many signs that such opposition can not radically hinder this country's enlightenment. Such a sign is the progress of the Y. M. C. A. movement among Chinese youths, which is assuming considerable importance, especially in connection with mission schools. It was found desirable to invite from America an experienced worker in this department; and though it will be some time before this gentleman can speak Chinese, there is no difficulty in the matter of interpreters, native or foreign.

Yesterday in our large Shanghai mission church, says a correspondent, there were gathered 200 Chinese boy scholars from various mission schools in and near Shanghai, all of whom were either members of the local Y. M. C. A. or willing to join it. Earnest addresses were given and prayers offered both in English and Chinese, the English addresses being admirably translated by a Christian Chinaman; while the bright hymn singing of those strong

young voices was a delightful sound. At the close of the morning meeting prayers were distributed to the boys containing questions to be answered in writing and a form of Christian ennoon service many of these were returned most satisfactorily and intelligently filled in. Such assemblies have recently been held with much interest and zeal, and apparently solid results, at Nanking and other centers of missionary work -- The Quiver.
